

Carpet Recycling UK Conference 2017

Carpet gallop

Mark Gilbert, Emerald Trading Waste Solutions

Emerald Trading Waste Solutions LTD

Hello!

We are Emerald Trading

A waste solutions company based in Staffordshire

Plastic Recycling | Cardboard Recycling | Site Clearances & much more

A little more about us!

Emerald Trading Waste Solutions Ltd based in Staffordshire, we offer bespoke waste management solutions, Site clearances, Plastic and Cardboard recycling and much more for our existing and new clients nationwide, we have over 30 years experience pertained within the waste & recycling industry and have access to many outlets to process a variety of materials, we have a dedicated UK customer care team who will manage the whole process for you.

1.

Plastic recycling

We buy and sell plastic #teamemerald

Plastic Recycling

We take our work and process very seriously in order to provide the best recycling processes possible to provide an end product that is truly remarkable. Plastics are made from a high grade oil which is a fossil fuel, which in time to come this will run out. There are worldwide green initiatives that are being introduced to ensure that organisations find an ethical, sustainable and corporately responsible approach to plastic.

2.

Cardboard & Paper recycling

Recycling takes little effort | for a big difference to our world.

Cardboard Recycling

We buy and sell cardboard and paper. We provide a fully bespoke and accredited cardboard and paper recycling services to a variety of small and large business all across Staffordshire and worldwide. We are reducing the amount of material going to landfill one customer at a time.

3.

Site Clearances

We take care of site clearances from properties to building sites

Site Clearances

It's not only plastic and paper recycling we take care of, we have a various list of services we provide to help the environment. Site clearances is one of our most popular services we welcome all landlords, estate agents and all businesses small to large. Our dedicated team will clear your site, business or property in a very effective and professional manner.

3.

Carpet recycling

Household carpets, office carpets and automotive carpets - we are recycling these.

Carpet Recycling

Our main production here at Emerald Trading is carpet recycling, we take old and new carpets from offices, homes and automotive vehicles and produce high end products. I bet you're thinking what on earth would you do with old carpet. We shred around 300 ton of carpet per week as a minimum. Which is then run through our over picking system then on to a magnetic separating machine. Then into our automatic bale wrapping machine then on its way to its destination.

Guess what - we have a little something extra to say, our business is so successful we decided to invest

£800k

Whoa! That's a big number, So we invested in our other company. #teamgallop

We are
Carpet Gallop

Hi Again!

We are Carpet Gallop

We produce all weather equestrian surfaces

Automotive fibre (GTechfibre) | Standalone fibre | Stabilising fibre

A little more about us!

Since 2006 we have worked extremely hard using our experience and development and customer feedback to make our equestrian surfaces products not only the best on the market, but to a very high standard that meets all the legal and certified regulations. The team at Carpet Gallop strive for excellence to make sure not only investing in our equestrian products satisfies you but to our installation help and advise is 100% accurate and that you are satisfied with the service we offer.

Automotive Fibre

Our advanced Automotive fibre (GTECHFIBRE) is designed with quality and durability in mind, so you can feel confident that you are investing in the best equestrian surfaces fibre possible.

Core Benefits

All-in-one weather surface frost, snow, rain, wind and sun free.

Fantastic development for existing surfaces or a complete new surface

Cheapest guaranteed on the market

Maintenance-free

High impact tension

Environmentally friendly

100% frost free so will not freeze

Standalone Fibre

Unlike other companies across the U.K. Did you know that our standalone carpet fibre surface is a 100% man made, ideal for gallops, manages and arenas. This product has been developed by racehorse owner and breeders to a specification that reflects what they would be happy to use for their own horses that go into training.

Core Benefits

Frost resistant and proven

Will not absorb wet weather

Extreme cushioning

Performance increase

Durability increase

Will beat even the harshest of weathers

Will not blow away

Cost effective

100% recycled

Stabilising Fibre

Our Stabilising fibre is manufactured to the highest grade possible. Did you know that all of our equestrian surfaces from stabilising fibre to automotive fibre is all manufactured in house here in Staffordshire. Unlike other companies around the UK where this is possibly drop ship in bales ready for sale. So by manufacturing ours in house we can monitor the whole process to make sure this 100% in quality. This surface will add a deep pile feeling to your arena , No Freezing, No Flooding and very durable.
