ACOUSTIC PROPERTIES

RAWSON
CARPET SOLUTIONS

RECOVER CORD

Through Research and development, UK Manufacturer Rawson have created a product which is surely the future for interior textiles.

Utilising the highest grade Polyester PET, and advanced machinery, a soft luxurious surface product in a selection of aesthetic colours has been created.

This, backed with a specially designed single polymer robust backing for the tile, provides a product to the market with proven recyclability back into PET, offering a multitude of further life uses.

Recover is available in sheet and tile. both are manufactured using 80% recycled material.

Our standard swatch is available ex stock, however as a manufacturer, bespoke colours and designs are always an option.

The benefits continue with a light weight box, easy cutting and high acoustic and thermal properties.

**A fully recyclable Carpet tile. NO LANDFILL.
NO ADDITIVES. NO LATEX. SINGLE POLYMER.
Made from 80% recycled material.**
